Target Summary - Target is a structure. The structure felt tall, Deep, stony and wide. I felt metallic and wooden textures as well. Target felt pointed at the top and rounded below.

I felt moving or a sense of motion, spinning, swirling.

Target had the smell of fresh open air. I felt these narrow slated things below the peak of the structure, thin narrow black and multiple.

I felt grooved tapered edges. I also felt hard angles as well as rounded curves. Colors were gray, green, brown, white and blue
